

Dear Mt. Baker Chapter of the Red Cross,

Please accept my \$400 donation to Haiti relief. This year for my 13<sup>th</sup> birthday, instead of presents I asked for donations for the Haiti earthquake victims. I raised \$250 from 13 friends that came to my party and I added \$150 of my own money. When the quake happened, I knew that it was going to be a disaster that affected the world and that Haitians were going to need as much help as they could get. I was saddened by how many people had died and if a body was found under the rubble. I was overjoyed when people were found even 3 weeks after the quake alive under the rubble. One day I hope that Haiti can recover from the devastation that has befallen its country and I hope that next time a quake strikes, Haiti will be ready. Hopefully my donation will change the life of one person and make their future a little brighter. Thank you for changing the world and saving lives.

Sincerely,

Wyatt Muller
